Sebastian M. Gonzaga

FRONT-END DEVELOPER · WEB DESIGNER

ABOUT

Front-end developer and web designer who builds interactive web apps, interfaces, and browser-based games. Comfortable with HTML, CSS, JavaScript, React, and responsive design, with two IT internships in database management, Excel automation, and system development. Looking for a junior front-end or web design role to build functional, accessible, user-friendly experiences.

PROJECTS

Pick A Name Games — Live

Web Developer · pickanamegames.com

- Built and deployed a classroom name-picker and browser-games platform, including Pick & Race and spaceship battle gameplay.
- Focused on usability for students and teachers; published on Vercel with a custom domain.

R.A.I.N. · Risk Awareness & Intelligent Navigation

Academic project · Tanauan City, Batangas

- Disaster-management web app built with React, Vite, and Supabase.
- Planned incident reporting, evacuation-center info, emergency contacts, and interactive maps.

Personal Developer Portfolio

Web design & development · live site

- Responsive portfolio showcasing projects and technical skills.

EXPERIENCE

IT Intern · Management Information System

Santo Tomas City Hall · March – May 2025

- Supported database management and the improvement of internal systems.
- Built Excel-based scripts that streamlined everyday tasks and processes.

IT Intern (OJT)

Tanauan City Hall · July – September 2024

- Handled data entry, digital record organization, and database tasks.
- Assisted with document preparation and basic troubleshooting.

EDUCATION

BS Information Technology

Polytechnic University of the Philippines, Sto. Tomas · Present

- President's/Dean's Lister since 1st year; Top 4 Overall Best Performing Student.

Senior High School · STEM

Marcelino Fule Memorial College, Alaminos · 2022

- With Honors; best in Basic Calculus, Physics, and Chemistry; Quiz Bee Calculus participant.

Junior High School

Mother Barbara Micarelli School, Sto. Tomas · 2020

- Top 3 in Mathematics; Top 5 in Computer.
